ARE YOU TRYING TO CHANGE THE WORLD WITH AN IPHONE IN YOUR HAND?

The bootcamp to take **control of digital tools** so you can **exist in the world on your own terms.**

We use technologies and then technologies shape us.

You can let technologies shape how you do things,

or, you can use technologies on your own terms.

That doesn't mean you have to code.

You just have to learn the basics,

so you don't get misled.

I can help you do so.
